CEMETERY SURNAME INDEX
FOR CEMETERIES IN
LOGAN COUNTY, ILLINOIS

(Includes burials through 2012, not including private cemeteries)

This burial list does not include the more recent burials in private cemeteries
or some of the private cemeteries throughout the county.

William R. Detmers

Multiple pages may not be copied from the paper copy
at the LCGHS Research Center.

August 11, 2012

This book is an index containing the names of those buried in cemeteries in Logan County. We transcribed every name listed in the cemetery records, to the best of our knowledge. The names are primarily from tombstone readings, so there will be names missing because there was no stone.

Some of the cemeteries in Logan County are privately owned, so we do not get updates from these Associations. If you find a name is missing, please write it down and let us know.

There are possibly a few small private cemeteries that were not included in this list because we did not have knowledge of these.

With this many names, we are sure there will be an occasional misspelling or omission. We know there will be an occasional duplicate name entered, but you will often find that two or more generations may be buried in the same cemetery, and someone from each generation had the same name. .

The contents of this cemetery index remain the property of William Detmers, and cannot be copied or reproduced for resale without his written consent.
